Help Us Help!

Here are just a few of the ways...

- ➤ JOIN STAR Institute as a paid Subscriber. Your annual subscription fee helps provide support for our missions of research, education, and advocacy.
- ➤ ENROLL in our online learning courses or tell a friend, colleague, or service provider about our online classes, webinars, and online symposia. Our online courses promote knowledge of SPD in an engaging interactive format and help underwrite SPD research.
- ➤ <u>TELL your OT about our Intensive Mentorship program</u> offered frequently. This small group training provides clinicians with a unique opportunity to receive training in assessment and intervention for SPD and other sensory challenges. Guided by Dr. Sarah A. Schoen and other expert faculty.
- ➤ <u>ATTEND our Annual Symposium</u> or tell others about it. We offer one Symposium each year in different locations around the country. Get the full experience of learning and networking by attending in person, or join us via livestream.
- > <u>SUPPORT our research, education and advocacy initiatives</u>. Whether you donate through our website, by mail, fax, or telephone, every gift helps underwrite the research crucial to advancing SPD knowledge, understanding, and recognition. You can even put us in your will.
- ORGANIZE or attend a Sensation Celebration event. Organizing event is simplified with all the tips and tools provided on our website.
- ➤ HELP your child start a fundraising campaign through the sport they play by gathering pledges for goals, baskets, or runs they make. Or request donations in honor of your child's birthday or a special event.
- VOLUNTEER your services. You don't have to leave your house to volunteer for us. Much of our needs require making phone calls, sending emails and conducting internet searches.
